DAI-ICHI'S PRODUCTS
Textiles Auxiliaries

Daicat NF / Daicat 50	Formaldehyde free dye fixing agent.
Neopon MW / Neopon MW-50	Mercerizing wetting agent.
Neopon MWLF/ MWLF1	Low foam mercerizing wetting agent.
Neopon MSN 1	Low foam mercerizing wetting agent for higher stability in alkaline medium.
Neowet LFS	Low foam scouring cum wetting agent for pretreatment.
Neowet LFW 60	Low foam scouring cum wetting agent for soft flow.
Noigen LV-4	APEO free scouring cum wetting agent for exhaust application.
Noigen RE 610 A	Anionic wetting cum scouring agent.
Noigen RW 0306	De-aerating cum wetting agent in Denim yarn dyeing.
Noigen X-100	Detergent cum wetting agent.
Taffulon 320 A	Cationic softener.
Taffulon 320 A Conc	Concentrated Cationic softener.
Daisoft LCS (M)	Softening cum smoothening agent.
Daisoft T	100 % cold water soluble non yellowing liquid hydrophilic softener.
Daisoft H	Cold water soluble non yellowing liquid hydrophilic softener.
Daisoft OC	Cationic softener.
Product AS 306	Silicone softener.
Noigen EL-40	Leveling and wetting agent for synthetics .
Noigen PLA / Loop DK Conc.	Leveling and wetting agent for synthetics.
Noigen DLP	Leveling and dispersing agent for synthetics.
Product CDM	Demineralising cum sequestering agent .
Shallol AN 103 P	Washing off cum chelating and dispersing agent.
Product OPS 15	Silicate free organic hydrogen peroxide stabilizer.
Product SR 35	Stain removing agent.

Noigen OSC	Oil and stain remover.
Noigen WSE	Single emulsifier for epoxy silicone oil white emulsions.
Noigen ES 1120 / SE 1350	Single emulsifier for epoxy silicone oil white emulsions.
Noigen HES	Single emulsifier for amino silicone oil emulsions.
Neopon DWA	Soaping and washing off agent.
Neterlube DRFL	Defoamer.
Daiozyme / Neowet LFDC / Product CDA / Product PS 30	Continuous bleaching package.
Noigen AM-10	Detergent cum wetting agent.

SPIN FINISHES

Netron PF-12(MS)	For high speed texturising in both contact and non-contact heaters.
Netron PF-(11) JB	For high speed texturising in both contact and non-contact heaters.
Neterlube EC 260	Concentrated product for high speed texturising.

BACTERICIDE

Daistat SBA	Bactericide for spin finishes.

RAYON

Noigen RYF	Additive in combination with viscose modifier.
Daisof	Anionic softening agent for rayon filament.
Neopon RFSL	Brightening, softening and antistatic agent for rayon.
Neopon RSGR(M)	Softening agent for rayon fiber.
Noigen BM-10	Pulp additive as slurry steeping agent. Increases the surface area of soda cellulose to facilitate xanthate formation.

Noigen ES-16	Non-ionic scrooping agent.
Noigen G 200	Spin bath additive, regeneration retarder, helps in reducing the choking of spinneret.
Noigen GRM-15	Viscose rayon modifier at dissolver stage and by injection in the spinning. Increases the tenacity, smoothening of the machine and reduces the incrustation in the spinneret.
Noigen SFR 3	Additive for CSY yarn as sizing agent.
Noigen DB	In Tyre cord manufacturing it increases the tenacity.
DK SET CL 90	Fastness improver for Dope Dyed Rayon fiber.
Noigen BM-2(M)	Rayon modifier in dissolver.
Noigen GRM-30	Tenacity improver for high wet modular rayon fiber.

SIZING

Netacryl WGL 500	Acrylic sizing agent for water jet looms.
Neterlube AO 60 (M)	After oil lubricant.
Neterson TS-783	Antistatic agent for synthetic filament yarn.
Noigen Wax V-7/ VM-7	Lubricant for sizing.
