

DAI-ICHI'S PRODUCTS

Petroleum Industry

OILFIELD CHEMICALS

OIL WELL DRILLING:

Daipol DF Series Shale encapsulation polymers.

Daipol BE Series Bentonite extenders.

WATER SHUT OFF:

Daipol WS Series Water shut off polymers.

ENHANCED OIL RECOVERY:

Daipol EOR Series Polymers for enhanced oil recovery.

PRODUCTION & TRANSPORTATION OF CRUDE OIL:

Daitrolite OSEB & EB Series Intermediates for demulsifiers and emulsion breakers for crude oils.

Daitrolite AS & DE Series Imidazoline based intermediates for corrosion inhibitor formulation.

Shallol AD Series Scale inhibitors & dispersants for calcium, magnesium, barium and strontium based scaling from production water hardness.

Noigen E Series Fatty amine based nonionic surfactants as co-inhibitors for corrosion Inhibitor formulation.

Dailube Series Phosphate ester based co-inhibitor for corrosion inhibitor formulation.

Daitrolite FIOD Series,
Daitrolite GCM Series,
Daitrolite FI Series,
Daitrolite PDS Series,
Daitrolite MNF Series &
Daitrolite PDC Series Pour point depressants, wax inhibitors & wax dispersants and flow improvers for waxy crude oils of a number of geographical zones across the world.

DK SET CL Series Reverse emulsion breakers for separated formation water / produced water.

DKT 163 Hydrogen sulfide scavenger.

REFINERY CHEMICALS

Daitrolite SB Series	Micro dispersions and micro emulsions of antimony pent oxide as metal passivators for FCC catalyst.
Daitrolite OSEB & EB Series	A range of intermediates for demulsifier and desalting agent formulation
Daitrolite DP Series	Pour Point depressants for diesel, middle distillate, fuel oils and gas oils
Lubrad Series	Lubricity improvers for diesel.

LUBRICATION INDUSTRY

Daitrolite PDL Series Daitrolite PDL MH Series Daitrolite PDM Series Daitrolite Dikapour Series	A range of pour point depressants for lubricating oil with poly alkylmethacrylate chemistry, poly styrene alkyl maleate chemistry, etc
